**RESPONSE TO NOTIFICATION OF MISSING
REQUIREMENTS UNDER 35 U.S.C. 371**

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

This is in response to the Official Action of May 21, 2002, the period for response is set to expire on July 21, 2002.

The Official Action states that the nucleotide and/or amino acid sequence disclosure contained in this application does not comply with the requirements for such a disclosure as set forth in 37 CFR 1.821(e) because a copy of the sequence listing in computer readable form has not been submitted.

It further states that Applicants must provide an initial computer readable form of the sequence listing and a statement that the contents of the paper copy and the computer readable form are the same and include no new matter.

Applicants submit herewith a computer readable form of the sequence listing and a statement that both the paper copy which was submitted with the application on March 15, 2002 and the computer readable form are the same and contain no new matter.

Applicants note that the Notification indicates receipt of the International Search Report and Information Disclosure Statements, however there is no indication that copies of the references have been received. Therefore, Applicants submit herewith a Form 1449 listing all of the documents in the Search Report and enclose a copy of each reference cited for the convenience of the Examiner. Acknowledgment of receipt of these references is most respectfully requested by initialing, dating and returning the Form 1449 with the next Official Action.

Accordingly, it is submitted that the application is in good order for an examination on the merits and it is therefore most respectfully requested.

Respectfully submitted,

BACON & THOMAS, PLLC
